This Office action is responsive to applicant's communication filed 8/19/09, which, in turn, was responsive to the restriction requirement mailed 7/21/09. The communication filed 8/19/09 points out that the restriction requirement, set forth in the Office action 7/21/09, and made under 35USC121, was not the proper basis for restriction since the application was a 35USC 371 application. Upon review and reconsideration, the 371 status of the current application was inadvertently overlooked. Therefore, the restriction requirement mailed 7/21/09 is hereby vacated, and the following restriction requirement is set forth below. The Office regrets any inconvenience caused by this inadvertent oversight.

Restriction is required under 35USC121 and 372.

This application contains the following inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1:

Group I, claims 1-3, drawn to a method of preparing a foodstuff including a coating step.

Group II, claims 4-6, drawn to a container capable of being sealed and capable of containing hot cooked food, which has a coating thereon.

The technical feature linking the two inventions is a seasoning mixture comprising seasonings and a granular edible substance, which is capable of forming at the temperature of a cooked food, a continuous coating on the food, and which coating is capable of no longer being fluid at the temperature at which the food would be consumed. This technical feature does not provide a contribution over the prior art as evidenced by Bilimers et al (EP815,741) as further evidenced by Vickers et al

Art Unit: 1794

(5,192,567), LaBaw et al (4,904,487), and Ludwig (EP988,798), all of whom teach flavored powders that are capable of forming coatings/glazes upon being exposed to heat, and which coatings are capable of not being fluid upon cooling. Therefore, since the technical feature does not provide a contribution over the prior art, it is not a special technical feature, and restriction is proper under 35USC372.

In accordance with 37CFR1.499, applicant is required to elect a single invention to which the claims must be restricted.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven L. Weinstein whose telephone number is 571-272-1410. The examiner can normally be reached on Monday-Friday 7:00 A.M-3:00 P.M..
